INTERVIEW SUMMARY

On March 8, 2005 Attorney England discussed with Examiner Phan the reply submitted in response to first Office action. The discussion was by telephone. In particular, Attorney stated the amendment to claim 1, for example, was intended to point out that the claim is directed to a process for notifying a service provider of acceptance of telephone calls for a particular flight and a particular seat assignment, rather than initial enrollment, registration, first-time account set up or the like. Attorney indicated in the telephone conference that if Examiner Phan feels certain additional or different wording would help serve to make this distinction more clear, Attorney would be very pleased to discuss this.

Respectfully submitted,

Anthony V.S. England
